

## Patrol Camera – Cabinets Electrical Interface

Interface Document: LN-MPIA-FDR-INT-083		Issue: 1.0
Relevant Documents: LN-MPIA-FDR-ELEC-005, SciMeasure manual, LN-INAFR-FDR-AO-001		
Brief Description: This document describes the electrical interface of the Patrol Camera to the cabinets (CCD controller).		
Prepared: L. Mohr Date: 07. June 2005	Approved: W. Gässler Date: 07. June 2005	Released: M. Kürster Date: 07. June 2005

### Interface Description

This document describes the electrical interface of the cabinet to the Patrol Camera, more precisely the CCD system of the Patrol Camera. The CCD system consists of the SciMeasure CCD-Controller, and CCD-Head. This represents the interface between Patrol Camera (CCD-Head) and cabinet (CCD-Controller).

### Interface Specification

#### CCD

See SciMeasure manual and LN-INAFR-FDR-AO-001.
