

CURRICULUM VITAE

PERSONAL INFORMATION

Name Roberto DECARLI
Address via dei Mirtilli 4
Bologna, BO, I-40137, Italy
Telephone +39 349 5228993 (mobile)
E-Mail roberto.decarli@oabo.inaf.it
Website www.mpia.de/homes/decarli/
Nationality Italian
Date of birth May, 25, 1982

JOB CAREER

- ▷ Period July 2017–
 - Current position **Permanent staff researcher** at the Istituto Nazionale di Astrofisica (INAF) – Osservatorio Astronomico di Bologna (OAB).
INAF – OAB
Via Gobetti 93/3
40129 Bologna, Italy
 - Institute

- ▷ Period May 2017–June 2017
 - Position **Post-doc** at the Max Planck Institut für Astronomie in the group of Dr. F. Walter. Funded by the European Research Council granted project “ASTRODAWN” (PI: F. Walter).

- ▷ Period Feb. 2012–April 2017
 - Position **Post-doc** at the Max Planck Institut für Astronomie in the group of Dr. F. Walter. Funded by the German Research Foundation (Deutsche Forschungsgemeinschaft, project “The Physical Conditions of the ISM in High-Redshift Galaxies”, SPP 1573).

- ▷ Period Feb. 2011–Jan. 2012
 - Position **Post-doc** at the Max Planck Institut für Astronomie in the group of Dr. F. Walter. Funded by the German national research centre for aeronautics and space (DLR, project FKZ 50 OR 1104).

- ▷ Period Nov. 2009–Jan. 2011
 - Position **Post-doc** at the Max Planck Institut für Astronomie in the group of Dr. F. Walter
 - Institute Max Planck Institut für Astronomie
Königstuhl 17
69117 Heidelberg, Germany

EDUCATION

- ▷ Period 2006–2009
 - Acquired qualification “**Dottorato di ricerca**” (*Ph.D. equivalent*) in Astronomy and Astrophysics
 - Institute Dipartimento di Fisica e Matematica, Università degli Studi dell’Insubria via Valleggio 11, Como, I-22100, Italy
 - Title of the PhD Thesis The redshift dependence of the MBH–Mhost relation in quasars
 - Supervisor prof. A. Treves
 - PhD defense date October, 28, 2009

- ▷ Period 2004–2006
 - Acquired qualifications “**Laurea specialistica**” (*second level degree*) in Astrophysics and Space Physics
 - Institute Università degli Studi di Milano–Bicocca
 - Principal subjects Optical astronomy, high-energy astrophysics, galactic dynamics
 - Minor subjects Cosmology, radioastronomy, general relativity, quantum physics
 - Thesis “Connessione fra buchi neri attivi e massa dinamica in galassie a spirale.” (*Connection between active black holes and dynamical mass in spiral galaxies*). Supervisors: prof. G. Gavazzi, M. Colpi
 - Grade Grade 110/110 *cum laude*

- ▷ Period 2001–2004
 - Acquired qualification “**Laurea di primo livello**” (*first level degree*) in Physics
 - Institute Università degli Studi di Milano–Bicocca
 - Thesis “Canali di informazione astrofisica e trasparenza atmosferica” (*Astrophysical information channels and atmospheric transparency*). Supervisor: prof. G. Sironi
 - Grade Grade 108/110

- ▷ Period 1996–2001
 - Acquired qualifications “Diploma di Maturità classica” (*High school diploma*)
 - Graduate school Liceo E. Majorana, Desio, MI – Italy

RESEARCH AREA

- Main research interests
 - Astronomy at (sub-)mm wavelengths. Star formation in high- z galaxies and quasar hosts. Physics of the interstellar medium at high redshift.
 - Supermassive black holes and their joint evolution with host galaxies. Phenomenology of Active Galactic Nuclei. Quasars and Quasi Stellar Objects. Massive black hole binaries.

- Techniques
 - Interferometry at mm wavelengths.
 - Stacking analysis. Statistics.
 - Optical and near-infrared imaging. Near-infrared imaging with Adaptive Optics.
 - Optical and near-infrared long-slit spectroscopy.

- Observational experience
 - Visitor Astronomer in the following observing runs:
 - August 8-9, 2018 (ESO/NTT – La Silla)
 - January 20-24, 2017 (ESO/NTT – La Silla)
 - / January 30 - February 4, 2016 (ESO/NTT – La Silla)
 - February 19-23, 2015 (ESO/NTT – La Silla)
 - March 2 - March 6, 2014 (ESO/NTT – La Silla)
 - June 16 - July 1, 2012 (ESO/NTT – La Silla)
 - February, 16-19, 2012 (ESO/NTT – La Silla)
 - March, 9-15, 2011 (3.5m Telescope – Calar Alto)
 - February, 24-25, 2011 (ESO/VLT – Paranal)
 - March, 24-27, 2009 (Cima Ekar Telescope – Asiago)
 - October, 17-19, 2007 (Nordic Optical Telescope – La Palma).
 - September, 17-20, 2007 (Cima Ekar Telescope – Asiago)
 - September, 9-12, 2007 (ESO/3.6m Telescope – La Silla)
 - March, 23-25, 2007 (ESO/3.6m Telescope – La Silla)
 - February, 17-20, 2007 (Cima Ekar Telescope – Asiago)
 - December, 15-18, 2006 (Cima Ekar Telescope – Asiago)
 - February, 18-21, 2005 (Loiano Telescope)

- Successful Service Mode proposals (as Principal Investigator)
 - ALMA:
 - “Gas-rich companions of $z>6$ quasars: large-scale clustering, or small-scale interactions?”, Cycle 5
 - “The interstellar medium in the first Gyr of the Universe”, Cycle 5
 - “Wide ASPECS: Bridging the gap between targeted observations and molecular deep fields”, Cycle 5
 - Director’s Discretionary Time project “A detailed image of the first merger”, Cycle 4
 - “A comprehensive study of the interstellar medium 830 Myr after the Big Bang”, Cycle 4

o

IRAM PdBI/NOEMA:

- “Witnessing the formation of the first large-scale structures in the universe”, winter 2017
- “A pilot study for a wide-area molecular scan of the Hubble Deep Field North”, summer 2017
- “A multi-line study of the star-forming medium in an IR-luminous $z \sim 6.5$ QSO”, summer 2017
- “Detecting the [NII] 205 micron line at the highest redshifts”, PIs: R. Decarli & C. Ferkinhoff, winter 2016
- “The birth of the giant: Pristine gas accretion and host galaxy assembly in a QSO at $z \sim 6.6$ ”, winter 2016
- “The formation of the first QSOs”, summer 2016
- “The birth of the giant: Pristine gas accretion and host galaxy assembly in a QSO at $z \sim 6.6$ ”, DDT winter 2015
- “The ISM in QSOs at the epoch of reionization”, winter 2015
- “Measuring CO excitation in a CO(1-0)-selected sample at $z \sim 2.4$ ”, summer 2015
- “The interstellar medium of a [CII]-bright QSO host galaxy at $z = 6.5$ ”, summer 2015
- “A gas-rich ‘dark’ galaxy at the peak of galaxy assembly”, winter 2014-15; summer 2015
- “A molecular scan in the Hubble Deep Field North: 2mm follow-up observations”, winter 2013-14; continued in summer 2014
- “A survey of ionized nitrogen ([NII]) at high redshift”, winter 2011-12; continued in winter 2012-13
- “J0927+2943: A massive BH binary or a galaxy collision?”, summer 2012; continued in winter 2012-13 and summer 2013
- “A census of [CII] in high- z galaxies with available [CII] observations”, summer 2013 + continued in winter 2013-14
- Director’s Discretionary Time project “Redshift measurement of a blind, high- z ($z = 2.071?$) CO detection in the HDF-N.”, summer 2013

Spitzer:

- “A Spitzer legacy view on high- z QSOs”, 30 hr in Cycle 11

ESO Very Large Telescope (Paranal, Chile):

- “First insight onto the build-up of QSOs at the cosmic dawn: a MUSE and ALMA synergy”, 4 hr in Service Mode, DDT, Aug 2016
- “Quasar probing quasars: exploring the mechanisms of quasar ignition”, 24 hours in Service Mode, Period Mar.2010-Sep.2010
- “The restframe UV-to-optical spectra of high- z quasars: a first NIR systematic study”, Periods Oct.2008-Sep.2009
- “The nature of the massive black hole binary system in the quasar SDSS J1536+0441”, 7 nights in Service Mode, Periods Apr.-May.2009

○

ESO 2.2m Telescope (La Silla, Chile):

- “Imaging follow-up observations of $z \sim 7$ quasar candidates from PS1” – 45 nights in Service Mode, Period: 2011-14

Calar Alto Observatory (Spain):

- “An intermediate mass BH in NGC 2276?” – 2 hr in Service Mode (DDT), Period Oct 2015
- “QQQ1516: A new, physically bound quasar triplet?” – 4 hr in Service Mode (DDT), Period Jul 2012
- “Spectroscopic follow-up of high- z BH binary candidates” – 5 nights in Service Mode, Period 2012-13
- “Imaging follow-up observations of $z \sim 7$ quasar candidates from PS1” – 40 nights in Service Mode, Period: 2011-12
- “Spectroscopic follow-up observations of $z \sim 7$ quasar candidates from PS1” – 20 nights in Service Mode, Period: 2011-12
- “A systematic search for massive black hole binaries – spectroscopy” – 3 nights in Service Mode, Period Mar 2012
- “A systematic search for massive black hole binaries – imaging” – 6 nights in Service Mode, Period Apr 2011-Apr 2012 and Dec 2014

Telescopio Nazionale Galileo (La Palma, Spain):

- “The low-mass end of the MBH-Lbulge relation.” – 30 hours in Service Mode, Period 2008 May-Nov

○

Cima Ekar 1.82m Telescope (Asiago, Italy):

- “Supermassive black holes and their host galaxies” – 5 nights in Service Mode, Period Nov.2007-Apr.2008
- “A search for pairs of bright quasars” – 4 nights in Service Mode, Period May 2008-Oct.2008
- “Supermassive black holes and their host galaxies” – 5 nights in Service Mode, Period May 2008-Oct.2008

○ Experience in archive data querying

Wide experience in data retrieving from the ESO, ALMA, SDSS, 2MASS, UKIDSS, WISE, and HST archives. Excellent practise with NED, SIMBAD and VizieR services.

REFEREEING

Referee of scientific publications in Nature, Science, the Astrophysical Journal, the Astrophysical Journal Letters, the Monthly Notices of the Royal Astronomical Society, Astronomy & Astrophysics, Astronomische Nachrichten.

INVITED TALKS

○ Conferences, workshops

- “AGN13 Conferenza Nazionale sugli AGN”, Milano (Italy), 2018, October 9-12.
- “KIAA Forum on Gas in Galaxies”, Beijing (China), 2018, June, 18-22.
- “MIAPP workshop: The interstellar medium of high redshift galaxies”, Garchin bei München (Germany), 2018, April, 9-20.
- “ASPECS collaboration workshop”, Ringberg Castle (Germany), 2018, January, 21-24.
- “MUSE/ASPECS collaboration meeting”, Heidelberg (Germany), 2017, November 15-16.
- “IV Workshop sull’Astronomia Millimetrica in Italia”, Bologna (Italy), 2017, November 7-10.
- “The transient and variable sky in the era of gravitational wave astronomy”, Newport Pagnell (UK), 2016, October 26-27 [canceled].
- “Physical Characteristics of Normal Galaxies at $z > 2$ ”, Leiden (Netherlands), 2016, October 17-21.
- “100th national conference of the Italian Physics Society”, Pisa (Italy), 2014, September 22-26.
- “Role of hydrogen in the evolution of galaxies” conference, Kuching (Malaysia), 2014, September 15-19.
- “European Week of Astronomy and Space Science”, Turku (Finland), 2013, July 8-12.
- “Single and double black holes in galaxies”, Ann Arbor, MI (USA), 2011, August 22-25.

CONFERENCES

○ Talks at conferences

- “Massive black holes in evolving galaxies”, Paris (France), 2018, June 25-29.
- “Illuminating the dark ages: quasars and galaxies in the reionization epoch”, Heidelberg (Germany), 2016, June 27 - July 1.
- “Molecular gas in galactic environments”, Charlottesville (VA, USA), 2016, April 4-7.
- “Gas, dust, and star-formation in Galaxies from the Local to Far Universe”, Chania (Greece), 2015, May 25-29.
- “ALMA Community Days”, Bonn (Germany), 2015, March 25-26.
- “Transformational Science in the ALMA Era: Multi-Wavelength Studies of Galaxy Evolution”, Charlottesville (VA, USA), 2014, August 4-7.
- “Galaxies in 3D across the universe”, Vienna (Austria), 2014, July 7-11.

○

- “Colorful galaxies: A conference for Peppo Gavazzi’s 65th birthday”, Menaggio (Italy), 2014, April 28-30.
- “3D2014: Gas and stars in galaxies: A multi-wavelength 3D perspective”, Garching (Germany), 2014, March 10-14.
- “Galaxy evolution over 5 decades”, Cambridge (UK), 2013, September 3-6.
- “Phases of the ISM”, Heidelberg (Germany), 2013, July 29-August 1.
- “Far-infrared emission as window to study the formation of galaxies, black holes and dust in the young universe”, Ringberg castle (Germany), 2013, May 13-17.
- “Interacting galaxies and binary quasars”, Trieste (Italy), 2012, April 2-5.
- “Narrow-line Seyfert 1 galaxies and their place in the Universe” workshop, Milano (Italy), 2011, April 4-6.
- “Bridging electromagnetic Astrophysics and Cosmology with gravitational waves” workshop, Milano (Italy), 2011, March 28-30.
- “Annual meeting of the Astronomische Gesellschaft”, Bonn (Germany), 2010, September 13-17.
- “What drives the growth of black holes?” workshop, Durham (UK), 2010, July 26-29.
- “AGN9” national conference, Ferrara (Italy), 2010, May 24-27.
- “54esimo Congresso della Società Astronomica Italiana”, Napoli (Italy), 2010, May 4-7.
- “Physics of Galactic Nuclei” conference, Ringberg castle (Germany), 2009, June 15-19.
- “AGN8” national conference, Turin (Italy), 2008, May 19-22.
- “FIR fine-structure lines workshop”, Heidelberg (Germany), 2015, June 8-11.
- “ALMA data reduction workshop”, Garching bei München, 2014, November 26-28.

○ Other attended conferences, workshops and schools

- “MPIA/MPA workshop”, Heidelberg (Germany), 2014, June 24-26.
- “ALMA data reduction workshop”, Garching bei München, 2013, February 21-22.
- “PS1 consortium meeting”, Cambridge, MA (USA), 2011, May 18-21.
- “ALMA Community days”, Garching bei München, 2011, April 6-7.
- “7th IRAM interferometry school”, Grenoble, 2010, October 4-8.
- “AGN: A global view” conference, Como, 2009, June 22-26.

o

- “Black Holes and their environment” Summer School, Bad Honneff, 2008, Aug. 4-8.
- “Very High Energy Astrophysics for Blazars and Gamma-Ray Burst”, Osservatorio Astronomico di Brera, Milano, 2008, Mar. 17-19.
- “The dark side of the Universe” PhD School at the Società Italiana di Relatività Generale e Fisica della Gravitazione, Como, 2007, May 14-18.
- “Ultra-Luminous X-ray sources Day”, Osservatorio Astronomico di Brera, Milano, 2007, Feb. 14.
- “Neutron Star Day”, Università degli Studi di Milano–Bicocca, 2006, Dic. 6.
- “Swift meeting”, Merate, 2006, Nov. 1-2.

ORGANIZATION OF EVENTS

o Organization of events

- Co-Chair and LOC member of the “FIR Fine Structure Line workshop”, Heidelberg, 2015, June 8-11.
- Member of the Local Organizer Committee of the “AGN: A global view” conference, Como, 2009, June 22-26.
- Organizer of the weekly “Galaxy coffee” at MPIA, January 2013.

TALKS

o Seminars

- Universidad Andres Bello La Casona, Santiago (Chile), 2017, Jan. 6
- Universidad Pontificia Catholica, Santiago (Chile), 2016, Jan. 26
- ESO headquarter, Santiago (Chile), 2016, Jan. 22
- Universidad Diego Portales, Santiago (Chile), 2016, Jan. 21
- Albert Einstein Institut, Golm (Germany), 2014, June 17
- Osservatorio Astronomico di Bologna (Italy), 2014, Apr. 17
- Königstuhl Colloquium, MPIA, Heidelberg (Germany), 2013, July 26
- Ohio State University, Columbus (OH, USA), 2013, Feb. 12
- Johns Hopkins University, Baltimore (MD, USA), 2013, Feb. 8
- Penn State University, State College (PA, USA), 2013, Feb. 4
- ESO headquarter, Santiago, 2012, Feb. 22
- Instituto de Astrofísica de Andalucía, Granada, 2011, Mar. 17
- ESO headquarter, Santiago, 2011, Feb. 10
- Università degli Studi di Milano – Bicocca, 2008, Feb. 26
- Nordic Optical Telescope headquarter, Sta Cruz de La Palma, 2007, Oct. 19
- ESO headquarter, Santiago, 2007, Sep. 6
- Osservatorio Astronomico di Brera – Merate, 2007, Jun. 22

POPULAR SCIENCE

○ Publications

“Buchi neri, galassie e tempo cosmico”, *Giornale dell’Astronomia*, Vol 36/4, 2010.

○ Seminars

“Buchi neri”, lecture for primary school students in Varedo (MB, Italy), Jan 2015.

“Il mestiere dell’astronomo”, lecture for primary school students in Varedo (MB, Italy), Jan 2015.

“Buchi neri di tutte le taglie”, during the “Occhio all’InSUBria” series at Università degli Studi dell’Insubria, Como, May 7, 2009.

“Quanto è grande l’Universo?”, lecture for primary school students in Varedo (MB, Italy), Feb 2009.

○ Press release

ALMA / NRAO / ESO / MPIA press release on the ASEPSC survey in the Hubble Ultra Deep Field.

INAF / MPIA / NRAO press release on companion galaxies of $z > 6$ quasars.

INAF / MPIA / Carnegie press release on the discovery of the most distant quasar ($z=7.54$).

GRANTS AND AWARDS

“Premio Pietro Tacchini 2010” assigned by the Italian Astronomy Society for the best PhD Thesis on Astronomy from an Italian University.

TEACHING EXPERIENCE

SCHOOLS

- Lecturer for PhD class (20 hr) at Università di Milano-Bicocca (Italy), 2015, January 7-16.

- Lecturer at the “Heidelberg Graduate School for Fundamental Physics Winterschool 2013”, Forschungszentrum Obergurgl (Austria), 2013, January 19-23.

MENTORING

Co-supervisor of PhD students: Chiara Mazzucchelli (MPIA/IMPRS), Eduardo Bañados (MPIA/IMPRS), Dr. Gisella De Rosa (MPIA/IMPRS), Dr. Emanuele Paolo Farina (Univ. Insubria)

Supervisor of master students: Chiara Mazzucchelli (Univ. Milano-Bicocca, MPIA), Angelo Veronesi (Univ. Insubria).

LANGUAGES

FIRST LANGUAGE
OTHER LANGUAGES

Italian

English – Read: excellent, Write: excellent, Talk: excellent
German – Read: elementar, Write: elementar, Talk: elementar

ABILITIES

SOCIAL SKILLS
ORGANISATIONAL SKILLS

Sociable, confident in public relationships at any level. Experienced in cooperation and group works.
Pragmatic, precise, punctual, well-organized. Used in working on a number of projects simultaneously. Skilled both in leading independent research and in group collaborations.

TECHNICAL SKILLS

O.S.:
Wide experience with Microsoft Windows systems and several Linux releases (in particular Ubuntu and SUSE).
Data reduction & analysis:
Wide experience in astronomical data reduction with IRAF, IRAM/GILDAS. Large experience of data reduction and analysis with CASA. Wide experience with CASA data simulations. Excellent programming skills with Super-Mongo and IRAF native language. Basic knowledge of FORTRAN, Python, C/C++ and bash.
Others:
Excellent knowledge of LaTeX and of Microsoft Office (and equivalent) software. Experience with HTML, CSS, JavaScript programming, GIMP, 3D Studio Max, and Blender graphics software.

HOBBIES

I love astronomy, of course, and I am interested in science outreach and education at any level.
I play the bass guitar and the ukulele, and I love music in most of its forms.
I like biking and indoor climbing.
